## SAW BLADES

### Freud TK400 Series Fine Cut-Off Blades

Freud's TK400 series of thin kerf saw blades offer trim carpenters and serious DIYers all the quality that fine cabinetmakers have come to expect from the Freud industrial series. The high tooth count and alternate top bevel grind of these blades deliver excellent quality crosscuts for interior and exterior trim work.

#### Specifications

- Thick micrograin carbide tips
- Thin kerf uses less power
- Kickback reducing design
- Laser cut blade bodies and expansion slots
- Tri-metal brazing for impact resistant tips.

#### Freud Mitre Saw Blade

Item #	Dia.	Teeth	Arbor	Kerf	Plate
TK406	10"	60 ATB	5/8"	.098	.071
