

## WOOD MILL

### Wood Mill

Rely on accurate workpiece control and increased safety with the versatile cast iron Model M1005 Wood Mill. This wood mill has a large 10" x 33 3/4" hardened table with a 2 1/2" hole for drilling operations, three T-slots on 2 1/2" centers, and adjustable table stops. The table moves 17 3/4" in the X axis and 12" in the Y axis. For the Z axis, the knee with hardened and ground column and knee slideways has 18" of travel. Combined with this superb range of travel, a selection of spindle speeds between 400-5000 RPM, and a headstock that both tilts and swivels left and right 90°, this machine will accurately mill, drill, bore or cut dovetails and slots into wood, metal, or plastic.
